

Weekly Log Entry

Major Project: MP-II

Week No.: 4

Prepared By: Kartikey Srivastava (221030321)

Date: 4th March 2026

Meeting No.: 4

Tasks Decided in Previous Meeting

- Improve UI consistency across product-related screens.
- Fix alignment and spacing issues in product layouts.
- Continue refining recommendation system UI.

Work Completed During the Week (2nd March – 8th March)

Worked on resolving multiple UI inconsistencies across the application, focusing on improving layout structure and visual alignment.

Fixed minor UI issues and design inconsistencies to ensure better visual uniformity throughout the application.

Resolved animation-related bugs that were affecting smooth transitions between screens and UI elements.

Identified and fixed heading alignment and sizing issues to improve readability and consistency across different sections.

Addressed bugs in the product search page, particularly related to scrolling behavior and user interaction.

Merged updates from development and feature branches to maintain codebase consistency and ensure smooth integration of new features.

Collaborated on minor design improvements to enhance overall user interface aesthetics.

Learning Outcomes

Gained better understanding of UI debugging and resolving layout inconsistencies in Flutter.

Improved knowledge of handling animations and transitions effectively.

Learned best practices for maintaining clean and consistent UI across multiple screens.

Internal Supervisor: Mr. Ajeet Kumar Verma
