

Weekly Log Entry

Major Project: MP-II

Week No.: 11

Prepared By: Kartikey Srivastava (221030321)

Date: 27th April 2026

Meeting No.: 11

Tasks Decided in Previous Meeting

- Fix migration bugs and improve UI responsiveness.
- Optimize layout, padding, and component behavior.
- Improve localization and user preferences handling.

Work Completed During the Week (21st April – 27th April)

Worked on migration-related bug fixes and stabilized multiple components affected by recent updates.

Refined UI/UX across screens by adjusting padding, layout alignment, and spacing for better consistency.

Improved product listing and banner layouts, including adjustments for single product display and VCLP banner positioning.

Enhanced bottom sheet behavior by refining dimensions, safe area handling, and spacing.

Implemented persistence of selected language after logout, improving localization experience.

Improved UI feedback mechanisms such as snackbar enhancements and better handling of maximum quantity messages.

Worked on animation improvements, including scaling effects for offer pricing to enhance user interaction.

Optimized dynamic widget spacing and ensured consistency across different screen sizes and layouts.

Updated product card dimensions and improved overall UI responsiveness.

Learning Outcomes

Improved expertise in UI/UX optimization and responsive design.

Gained experience in handling migration-related issues in large-scale applications.

Learned better techniques for managing localization and persistent user settings.

Internal Supervisor: Mr. Ajeet Kumar Verma
