

## **Weekly Log Entry**

**Major Project:** MP-II

**Week No.:** 12

**Prepared By:** Kartikey Srivastava (221030321)

**Date:** 2nd May 2026

**Meeting No.:** 12

### **Tasks Decided in Previous Meeting**

- Finalize UI refinements and fix regression bugs.
- Improve navigation, performance, and system UI behavior.
- Ensure application stability before final submission.

### **Work Completed During the Week (28th April – 3rd May)**

Resolved regression bugs and ensured stability across multiple modules after recent updates.

Improved navigation logic, particularly handling failed payment scenarios and edge cases.

Enhanced home page loading states and onboarding validation checks for smoother user experience.

Fixed issues related to service unavailability during address selection.

Refined UI components by adjusting top and bottom padding, improving alignment, and ensuring visual consistency.

Implemented edge-to-edge system UI styling to improve screen utilization and modernize app appearance.

Optimized search UI and deferred push notification initialization to improve performance.

Enhanced bottom sheet behavior, including safe area handling and keyboard visibility spacing.

Performed final testing and validation across multiple scenarios and devices to ensure reliability.

### **Learning Outcomes**

Gained experience in final-stage product stabilization and regression handling.

Improved understanding of performance optimization and system UI enhancements.

Learned the importance of thorough testing and polishing before release.

**Internal Supervisor:** Mr. Ajeet Kumar Verma
